

DATUM ENGINEERS

THE ART OF STRUCTURAL ENGINEERING

Position: Full-time Graduate Engineer -- Structural
(Internships also available)

Locations: Dallas, Austin

Classification: May, August, or December Graduates.

Qualifications: MS or BS in Architectural Engineering or Civil Engineering with a Structural Emphasis. Masters candidates are preferred.

About Datum:

Datum Engineers is one of the premier structural engineering firms in the Southwest. We specialize in designing structures for complex and architecturally significant projects. We serve a strong base of regional clients as well as prominent national design firms and our work has been featured on the covers of regional and national engineering publications. We call what we do "The Art of Structural Engineering" because it combines technical skill with experience and imagination to produce innovative structural solutions for our projects.

At Datum you will be exposed to a wide variety of building types and structural systems, which will prepare you well for your journey toward obtaining your PE license. We also offer an array of opportunities for you to continue to learn outside the context of our projects.

We offer an excellent 401(k) program, bonuses, and competitive benefits.

Job Description:

Design, analysis, detailing, and construction administration for diverse projects types, including higher education, laboratory & research, healthcare, cultural & events centers, K-12, worship, corporate/office, urban living, and high rise.
