Subject: Hunt & Joiner - Entry Level Engineers

Dr. Bracci,

I hope you are doing well. Congratulations on being elected a fellow in ACI.

We are again looking for entry level structural engineers in our Dallas office, December and May graduates. Attached is an advertisement for an entry level engineer. I was hoping you could distribute this again. We were very pleased with the candidates that we interviewed last year.

Clint Cody and I are coming down on October 2 to make a presentation to the SEAOT group.

I'll be back on October 8 interviewing at the Career Center . If there is immediate interest, I expect that I'll be able to make time on October 8 to meet with some students.

Thank you again for your time and assistance.

Sincerely,
Martin

=====

We are seeking talented and self-motivated Bachelor or Masters Degree candidates for entry level structural engineering positions in our Dallas office. Hunt & Joiner, Inc. is a professional corporation providing consulting structural engineering services for owners, architects, civil engineers, and general contractors. We have over 50 years experience in providing innovative yet economical structural engineering solutions for our clients.

Hunt & Joiner, Inc. provides premium structural engineering services on a broad range of projects including retail centers, movie theaters, offices, schools, restaurants, industrial/distribution facilities, churches, assisted living facilities, telecom structures, auto dealerships, and bridges. We are presently licensed in 48 states, and have projects under construction from Florida to Vermont to California . We work integrally with the design team members to provide progressive solutions to the most challenging problems.

H&J offers an excellent salary and benefits package, including healthcare, dental, vision and 401k. Qualified

applicants may email a resume to mgraves@h-jinc.com or fax to 214-760-7050. EOE. Visit our web-site at www.h-jinc.com.
